

## **Introduction to the Adopt A School Project On Line Download**

Dear Friends,

We are so glad that you want to **Adopt a School** and help to demilitarize high schools and present alternatives. This **Guidebook** is an ongoing process which is adapted as changes and new developments occur. Bear in mind that some information is specific to the Los Angeles Unified School District but the information can be applied to other school districts. Also it is written with the understanding that there is a designated Point Person (teacher, student, parent, community member or school staff) who will take responsibility to follow through on the strategies and actions throughout the school year.

Some websites with good resources and information include:

Project YANO [www.projectyano.org](http://www.projectyano.org)

Ninth Circuit Court Ruling on Equal Access to High Schools- see COMD
